Indications

The 18mm handpiece provides heating for the purpose of elevating tissue temperature for selected medical conditions such as temporary relief of pain, muscle spasms, and increase in local circulation.

NOTE: A qualified practitioner is solely responsible for evaluating each subject's suitability to undergo a RF procedure and for informing about any risks involved with the procedure, preoperative and postoperative care, and any other relevant information. Like all medical procedures, not all patients are suitable for the procedure. Physicians and patients should discuss the procedure and review the risks and benefits of this procedure

Vitalia

Women's Wellness Revitalised

HOW DOES IT WORK?

TempSure Vitalia works by delivering therapeutic heat to the target tissue to temporarily increase local circulation and decrease pain and muscle spasms. The procedure is delivered using a probe specifically designed for your most sensitive areas.

Sit back, relax, and listen to the soothing spa tones of TempSure Vitalia, while you experience the gentle warmth of the procedure.

FREQUENTLY ASKED QUESTIONS

What does the procedure feel like?

During the TempSure Vitalia procedure you will feel gentle heating of the target tissue. The treatment has been carefully designed with you in mind to deliver heat gradually for a comfortable therapeutic experience every time.

How long is the procedure?

The procedure will depend on how many zones you choose to be treated. Each zone is treated for 5 minutes. For example, if your practitioner chooses to treat 5 zones, the procedure would be 25 minutes. Please work with your practitioner to develop a procedure plan that is right for you.

How many procedures are necessary?

A series of procedures is always recommended.

Every patient is different, so the optimal number of treatments can vary. Work with your practitioner to develop a procedure plan that is right for you!

What areas can I get treated?

TempSure Vitalia's unique probe is specifically designed to gently treat your most sensitive areas.

Is this right for me?

Treatments are fast, easy and can be performed on all skin types. Your practitioner will develop a plan that is right for you.
